The Law Regulating Newspapers and Periodicals

Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions

If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid the subscribers are responsible for all the numbers sent

If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered the papers discontinued

The Courts have decided that a refusal to take a newspaper or period cal from the Post Office without notifying the publisher and the payment of all arrearages, is prima facie evidence of fraud

Subscribers to newspapers or periodicals removing, are liable to pay so long as the paper or period cal may be sent to the residence of the party at the time of subscription unless notice is sent of such removal to the publication office

American & Foreign Patents

R H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U S Patent Office, Washington, (under the Act of 1837)
70 State Street, opposite Kilby Street,
BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also, in Great Britain, France and other foreign countries Caveats, Specifications Bonds, Assignments and all Papers on Drawings for Patents executed on liberal terms, and with dispatch Researches made into American or Foreign works, to determine the validity or utility of Patents of Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England but for many years the inventors have advantages for securing Patents, of not retaining the patentability of inventions unsurpassed by if not unsurpassed by superior to any which can be offered from elsewhere The testimonials below given prove that none is more successful at the Patent Office than the subscriber and as success is the best proof of services and ability he would add that he has spared no pains to deserve and merit a share of the patronage of the public Their past efforts as successful merchants and their present determination to establish a first class trading house entitle them to a liberal patronage

All necessity of a journey to Washington to procure a Patent and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure it them at early and favorable consideration at the Patent Office HENRY SHERMAN, Late Commissioner of Patents

"Mr R H Eddy has made for me Thirteen applications on all but six of which patents have been granted and that is more prosperity than mistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on the cases and at very reasonable charges JOHN TAGGART

During the last nine years the subscriber, in charge of his large practice has made on twice rejected applications of VERY FEW EVERY ONE of which was decided in his favor by the Commissioner of Patents R H EDDY

The Largest
ESTABLISHMENT
OF THE KIND
IN THE STATE!
No. 20
Main Street, - - - - - Bangor.

I SAY IT and I say it truthfully but not in a spirit, and any one who will take the trouble to visit my establishment will be convinced of the truth of the statement.

Boots and Shoes,

My assortment of Boots and Shoes cannot be surpassed by any store in the state I have constantly in hand and am manufacturing all the varieties of Ladies Misses and Children's SHOES and GAITERS also Men's Work of every description All work manufactured in my own establishment is made on the

Plumer Patent Anatomical Last,

the prime pile of which is well known I have manufactured for the last twelve months on the Patent Last and am convinced that a vast deal of human suffering might readily be saved by those who have corns and bunions and confirm a testimonial which can be most sincerely appreciated by those who suffer from tender feet.

To Officers and Soldiers!

Every Officer and Soldier should have his Boots or Shoes made on the Plumer Patent Last A soldier can travel farther in a day and with less fatigue the natural arches of the foot are properly supported and their development is prevented so as to produce a firm and elastic tread Try them and you will be convinced

BOOTS.

ELECTRICITY

DRS DEMING BROTHER

WOULD respectfully announce to the citizens of Bangor and vicinity, that they have taken a suit of Rooms at

2 1-2 STRICKLAND'S BLOCK,

on Kenduskeag Bridge, where we shall remain through the winter to treat CHRONIC by the

Electropathic Treatment.

We would especially invite the afflicted, that are laboring under any old and inveterate Chronic Diseases, in the form of Scrofula Hip Disease White Swelling Erysipelas, Salt Rheum Tetter Rash, and every humor of whatever kind and character like wise, Spinal Diseases, Curvature, St Vitus' Dance, Fits Paralysis Contracted Muscles, Distorted Limbs Dyspepsia, Liver Complaint, General Debility Habitual Constipation &c We would likewise call the attention of the public to our peculiar and successful manner of curing

Consumption,

in every instance when in the acute stages, or when the lungs are not fully involved

The most obstinate cases of nervous prostrate Head ache, Neuralgia in the head, face and extremities with acute and chronic Rheumatism are instantly relieved and permanently cured in a few applications

To the ladies Drs D most especially call who are sufferers with Dropsy Debility Leucorrhœa (or Whites,) inflammation and Falling of the Womb Abscesses Tumors and Cancers of the Womb, and will guarantee a permanent cure in every case

For Suppressions, Irregularities painful Menstruation Neuralgia of the Womb, with all their entailing ills, there is no agent in the world so efficient in curing as Electricity In many cases serious obstructions can be broken up in a few moments and in every case it destroys the tendency to relapse—To all those desiring PERFECT HEALTH and the services of the oldest Medical Electricians in the United States we most respectfully invite to call, tendering to all a positive assurance of a full recovery of health

P S—Drs D first introduced electricity for extracting teeth without pain

To those having decayed teeth or stumps we desiring their teeth out for re-setting we extend a polite invitation During the operation the person experiences a pleasing, invigorating sensation

N B—for extract ng Minerals and Humors from the system we use electro-chemical Baths

Office hours from 8 to 12 A M 1 to 6 and 7 to 9 in the evening. Consultation Free

ILLUSTRATED
SCIENTIFIC AMERICAN;
—THE—
Best Mechanical Paper in the World
SEVENTEENTH YEAR
VOLUME VI—NEW SERIES

A NEW VOLUME of this widely circulated paper commences on the first of January It is published WEEKLY and every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries all of which are prepared expressly for its columns

To the Mechanic and Manufacturer

No person engaged in any of the mechanical or manufacturing pursuits should think of doing without the SCIENTIFIC AMERICAN It contains four sheets per week every number claims of from six to ten engravings of new machines and inventions which cannot be found in any other publication It is as established rule of the publishers to insert none but original engravings, and the best of the first class in the art design and engraving by experienced persons under their own supervision

To the Inventor

The SCIENTIFIC AMERICAN is indispensable to every inventor as it contains illustrated descriptions of nearly all the best inventions as they come out but each number contains an Official list of the claims of all the Patents issued from the United States Patent Office during the week previous thus giving a correct history of the progress of inventions in this country We are also receiving every week the best scientific journals of Great Britain, France, and Germany, thus placing in our possession all that is transpiring in mechanical science and art in these old countries We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights and Farmers

The SCIENTIFIC AMERICAN will be found a most useful journal to them All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked, all the new inventions and discoveries appertaining to these pursuits being published from week to week Useful and practical information pertaining to the interests of millwrights and mill-owners will be found published in the Scientific American which information they cannot possibly obtain from any other source Subjects in which planters and farmers are interested will be found discussed in the scientific American, most of the important improvements in agricultural implements being illustrated in its columns.

TERMS

To mail subscribers, Two Dollars a year, or One Dollar for six months One Dollar pays for one complete volume of 416 pages, two volumes comprise one year The volumes commence on the first of January and July Specimen copies will be sent gratis to any part of the country Also a pamphlet of instruct on to inventors about obtaining patents sent free

Western and Canadian money or Post-office stamps taken at par for subscriptions Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage

In Peace or War, on land or sea,
Our flag, the ægis of the free,
Bright emblem of Columbia's glory!
Shall tell to passing years the story,
How, stout of heart, and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life,
On tented field, 'mid fearful strife,
Still on! 'till through the sulphurous cloud
It broke in triumph, Treason's shroud!

Iron Clad Ships of War.

The progress of invention and science has essentially changed the character of marine warfare since the last war with England, not only in superseding sail vessels by swift war steamers, but within a few years bringing into use the new and still more formidable class of iron or steel clad ships, capable of resisting all but the heaviest kinds of shot, and of being propelled at the highest rate of speed known to sea-going steamers. With this class of vessels both England and France have been providing themselves to some extent during the past two years—and the occurrence of the present war has compelled our own government, as a matter of precaution, to turn its attention in the same line. England has now nineteen of this class of ships, few of them of great size however, or capable of great speed; and the most of them cannot be put in condition for war under a year from this time. The United States, we have no doubt, will soon be equal with England in this arm of naval service. We have now three iron plated frigates under contract and far advanced. Mr. E. A. Stevens has just built, at Bordentown, an iron plated gunboat steamer, which he has presented to the government. The great iron battery at New York can be finished in a short time and the annual report of the Navy Department recommends the construction of twenty additional iron plated ships.

While on this subject some details of the size and strength of the English steel-clad ships will be of interest. We find that the Warrior and the Black Prince are the only ships of great size yet plated. They are both alike, and a description of the Warrior will answer for both. She is of six thousand tons burden; she has been tried as a sea-going ship, and found to be a complete success; her speed exceeds that of any war vessel in the world, and her size and power are unsurpassed. Such is the account given by English papers. Her armament consists of eight guns on her upper deck, viz. two 100-pounders, four 40-pounder, and two 95-pounder Armstrong guns—and thirty-six guns on her main deck, ten of which are 100-pounders and the remainder 68-pounders, With her steel armor on she weighs nine thousand tons, draws twenty-six feet of water, and can go sixteen and a half miles an hour. Her engines have nearly six thousand horse power, and she is built in compartments, each of which is both air and water tight.

Then there are two smaller frigates—the Resistance and the Defence. They are of 3700 tons burden each, and have by this time probably joined the Channel fleet. These four ships carry between them one hundred and twenty-six of the heaviest Armstrong guns.

Then comes a class of ships of which but little is known at present, viz: the Valiant and the Hector. These ships are far advanced in construction, and will be ready for sea in May next. The tonnage is about 400 tons more than the Resistance, and nearly 3000 less than the Warrior. They are 280 feet long, 56 broad, and 50 deep; they have by no means a handsome appearance, owing to the stem and stern being almost precisely of the same form. The Valiant differs from the Resistance in not having an advanced prow or beak, for the purpose of running down the ships of the enemy. The framework of this vessel is of enormous strength. The keel piece is formed of iron plates 14 inches in thickness, and to this the ribs for the sides are secured, two feet apart from each other.—At their junction with the keel they are two feet in depth, and taper off at the main deck to ten inches in depth. Both the Valiant and the Hector are built in water-tight compartments, with a view to the safety as well as the greater strength of the ship. There are no less than seventy-eight water-tight compartments. At the stem and the stern, for about twelve feet at each end, behind the armor plates, the interior is perfectly honey-combed with iron cellular plates. The majority of these iron cells are not more than three feet deep, and less than two feet wide.—Such is the admirable manner in which these dark chambers are constructed that they are not only water-tight but air-tight. The object of these cells is to resist firmly the stem and the stern in the main body of the ship.

For two or three feet below the main deck, fore and aft, there is no armor plating, and plated solid net as traps, in which to catch the shot of the enemy. An ordinary cannon ball might pass through the size of one of these compartments, but its speed and power would be so far checked as to prevent its wandering far amid this maze of iron work. The Valiant will carry thirty guns on the main decks, and two pivots and four 68-pounders on the upper deck. The question now is what will be the result when two armor-plated vessels shall encounter each other? Hitherto neither England nor France has succeeded in making iron shot-proof vessels, (we are speaking now of the Warrior's predecessors.) In the Crimean war the English floating batteries went to pieces under a fire of solid sixty-eight pounders. The French boats employed in the attack on Kinburn, though hit by only thirty-two pound shot, gave unmistakable signs that more knocks or heavier metal would soon send them to the bottom. But then these were small vessels, and their defences were trifling compared with the new armor-plates; and so they do not serve as a criterion for us to judge of what would happen were the Warrior to encounter La Gloire or the guns of a well appointed fort. Nevertheless it is clear that wooden ships will not be able to resist successfully these enormous iron fabrics. The Warrior can be used as a ram against smaller craft; a mass of iron, sharp, pointed, weigh ng 9000 tons, and moving at the rate of sixteen miles an hour, would cut a large ship in two with the greatest ease. Our government cannot prepare too soon to encounter these Warriors and Black Princes of the Ocean.

EXPECTED DEPARTURE OF MR. BRECKINRIDGE FOR EUROPE. The St. John New Brunswicker of the 17th, has the following.

"Some few weeks ago we announced that immediately on the receipt of the intelligence of the capture of Messrs. Slidell and Mason in the Southern States, Messrs. Hunter and Breckinridge had been appointed in their place; and that the latter would make his way to Halifax and proceed in the Canard Steamer to Europe. We learn from the Halifax Express that Mr. Breckinridge arrived there about a week ago, accompanied by another gentleman, and took passage in the Canada, for England.

It appears that the authorities in Boston were aware of the fact of Mr. Breckinridge being here, and the Attorney General of Boston sent a notice to the Captain of the Canada, previous to his sailing from Boston, forbidding him taking Breckinridge on board. Captain Muir very quietly replied that he was not supposed to know who his passengers were; and he would like to see any passenger taken out of his ship while under the protection of the British flag. It is also stated that a similar notice was served on the captain of the Canada here; but that no notice was taken of it, and Mr. Breckinridge is now on board the steamer en route to Europe.

The Halifax Morning Journal copied the above, remarking:

"The above we give on the authority of the Express of last evening, but do not vouch for its entire authenticity. We may mention, in connection with this statement, that for a week past two gentlemen whose names, business and destination seemed to be shrouded in mystery, have been in Halifax, and it is possible that they may have been the Southern Commissioners. If so, they managed to preserve their incognito pretty effectually until the hour of their departure."

We give the story for what it is worth, but we don't believe it. We think Hunter and Breckinridge were not there.

REMARKABLE CONVERSION. The last number of the Boston Pine and Palm, contains the following remarkable announcement from its editor, James Redpath:

A PREPARATORY WORD. Having become sincerely convinced that many of the political doctrines that I have advocated in my writings are dangerous and abhorent to the higher insight; the murderous policy, for example, of inciting the slaves to insurrection;—which I have urged repeatedly and with terribly mistaken zeal—I wish to announce here that I shall retire from any participation in the political management of this journal, excepting for the purpose of retracting past errors, until such time as I feel that I have attained a clearer and more human and Christian view of the duties of the freeman to the enslaved. I shall confine myself exclusively to the editing of the outside pages of the paper. The name of the acting editor will be duly announced. The articles signed with an asterisk (*) were mine; of these I will retract many; my associates who indicate their respective writings by the initials †, ‡, and §, are alone responsible for their thoughts thus labelled. I repudiate my war doctrines, utterly and forever.

JAMES REDPATH.

DEFENCES OF WASHINGTON. According to the report of the Chief Engineer of the Army, Gen. Barnard, made to the Secretary of War, there are forty eight defensive works around and in close vicinity to Washington, which mount three hundred guns that defend a circumference of thirty five miles—exceeding by several miles, in this respect, the perimeter of the largest fortification of modern times. As these works in many instances were thrown up hastily in the face of the enemy, they are partly incomplete, but can be made perfect in a very few weeks, at an expense of $150,000.

RETURN OF GEN. SCOTT. It will be seen by telegraphic despatches that the threatened trouble with England has caused the old hero and "pacificator" to return to this country, and that he is on board the Arago, which will arrive in New York today or tomorrow. The French Government was anxious that he should return and exert himself to preserve peace with England. That he will use his great influence to its fullest extent to secure that object, if it can be done honorably, there is no doubt. We think he may bring about a rider one of the question, with France as arbiter.

The Fortress Monroe correspondent of the Philadelphia Inquirer transmits the annexed items:

"Rumors from passengers arriving here on the Spaulding, give an idea that many of the inhabitants of Charleston are now in a starving condition. Relief is going forward from all the Southern cities.

Great distress prevails throughout the South for want of the actual necessaries of life.—Everything like grain, potatoes, and meat has been seized for the army now in the field, and many families acknowledge that they are consuming their seed corn and wheat."

PREMONITION TO COL. DOW. A sword and equipments will be presented to Col. Dow this evening by the business men and manufacturers of Portland; and at the same time a full set of horse equipments will and be presented to him by the Portland Mounted Association.

LOCAL AND MAINE ITEMS.

Job Work. We are prepared to execute job work of all kinds at remarkably low prices and in the neatest style.

☞ Copies of the Daily Whig—price three cents—for sale at our counting room.

☞ Our Carriers are not allowed to sell papers while on their routes.

*** Subscriptions for a less time than three months 50 cents per month.

CHRISTMAS EVE. Vesper Services will be held at the Unitarian Church this evening at 7½ o'clock, in commemoration of the Advent of our Saviour.

DR. BARKER'S RESIGNATION. In regard to the resignation of Dr. Barker of this city, as Regimental Surgeon of the Seventh Maine Regiment, Dr. McNeer, Brigade Surgeon, writes as follows to a gentleman of this city—

"I wish to assure his friends that, from particular inquiries which I have made of various individuals, especially of the Brigade Surgeon, with whom I had official business, that the result has been brought about by prejudices which have existed from his first connection with the Regiment, rather than from any neglect or unfaithfulness on his part. Dr. B's duties have been very severe, and I have very good reason to believe that he has had but little aid from his assistants.

☞ About six inches of snow fell here yesterday, giving us the first good sleighing of the season.

Appeal to the Women of New England. An organization in Boston, of which Dr. John Ware is President, Dr. J. G. Howe Vice President, Rev. Rufus Ellis Secretary, with Committees of the first ladies of that city, put forth an appeal in behalf of the United States Sanitary Commission, whose object is to prevent or mitigate the terrible evils which beset an army in the camp, and which decimated the Crimean army. The Commission has not an article supplied by the Government—it works gratuitously for the army and for the country, and is the friend of the sick and wounded soldiers from the whole Union.

The Boston association is an authorized branch of the Sanitary Commission, and it seeks to obtain from every woman in New England such assistance as she is able to give in money, clothes, socks, yarn, and other available materials.—Much has been given, but more is needed, and ten times as much may be given with suitable effort.

The ladies of this city are earnestly invited to join in this organization, and by concerted action accomplish much more than has hitherto been done. We understand that the patriotic women are already moving for a new and combined effort. The work should not be left to a few, but all should feel an interest in it and a duty to be performed.

THE PROPELLER SAXON. We learn from Capt Flowers of this city, who returned home on Saturday, that the new propeller "Saxon" (formerly the Wm. Tibbets) of this this city, has been put in complete preparation for service as a government transport, and is now taking on board her armament and stores at the south side of Long Wharf, Boston. She carries on her deck two 16 pounder Parrott guns, one forward and the other aft, and is to take from 300 to 400 men of Gen. Butler's expedition. Captain Flowers has been superintending the coppering, strengthening and alteration of the vessel, in various parts, and has made very quick despatch in the business. It has all been accomplished in two weeks—the necessary expenditure being about $5000.

☞ Sch Susan, of Bluehill, from Philadelphia with coal, went ashore on Race Point, Cape Cod, Sunday night. It is thought she will not be got off.

☞ Sch Major Deering, from Bangor for Boston, lost jibboom, part of deck load, and sprung a leak in a heavy westerly gale on the 15th, off Seguin, and put into Portland for repairs.

☞ The Captain and crew of the schooner Congress, of and for Machiasport from Boston, in ballast, arrived at New Bedford on the 21st having abandoned their vessel in a leaky condition, with loss of sails, main boom, etc., and were out of provisions and water, when they were picked up by the South Shoal Light Vessel.

TWELFTH REGIMENT. It is expected that the 12th Regiment, Colonel Stapley, will embark Tuesday at Boston, on the Constitution for Ship Island. It is also thought that battery A, Capt Thompson, which joined the regiment at Camp Chase, Lowell, on Wednesday last, will embark at the same time. We understand that the regiment has made good progress in discipline and drill, and that its members are impatient to be on their way South.—*Argus.*

CAPTURE OF THE MONTMORENCI OF BATH.—From a letter of the Captain in Bath, published in the Bath Times, we quote the following interesting particulars. The capture was made by the pirate Sumter, on the 26th November. The Sumter having come up with the ship and boarded her, Capt. Brown writes:

The Sumter, lying within a few yards of us, her guns pointed at us, and about one hundred men on deck, I did not see the least chance for escape. I went on board the Sumter, when I was ordered to the captain's cabin, who said to me that I was his enemy, that my ship was a prize to the Confederate States of America, &c. I told him I had a cargo of coals belonging to the English W. I. Mail Steamship Co., that my ship was chartered by them, and that he could not take my ship without coming in collision with England. He asked how I could prove these facts. I referred to my charter party, bill of lading, clearance from Newport, Wales, and showed him the papers.

The captain then said the ship and freight belonged to him; that he would put a prize master on board and send her into port. I asked him where he could send her? He then said he would burn her. I again reminded him of the neutral cargo. He figured the probable cost of the coals, and said if I had a valuable cargo belonging to English owners, he should let me go after taking what he wanted from the ship, but as the cargo was not worth over $4000, it was worth his while to pay England, rather than to do so, $4000 for the sake of destroying from his enemy what he supposed worth $40,000; that it would be money well laid out. He said there was one of two things he would do; it would take from me a ransom bond of $40,000, payable to the President of the Confederate States, thirty days after the Declaration of Peace, or he would burn my ship. I did not leave with a Prisoner. He then called his officer of the deck, and told him to take all the valuables from my ship, and then burn her. While they were in the act of doing so, I came below to sign the bond and [illegible] the bond [illegible] penitentiary, and I believe he took it as a lawyer-like way of getting rid of me. He then declared me a prisoner of war, and treated me to sign a parole paper. I remonstrated, but he had me a prisoner in his cabin, and told me there was no alternative. I had to do it. He then said he wanted all my spare canvas, rope, paints, oil, &c. After ransacking the ship—which I put down to my protest as piracy—he took all my fire arms, powder, &c. I told him I wanted my fire arms. He said it was one of the most important things to disarm their enemies; but when I expostulated with him that I must have them as I had ransomed my ship, and must protect her against small pirates, he said I was right, and gave them all up to me after I got on board my own ship, sword and all.

I tried to get a chance to see how well armed the Sumter was. I went on deck. The officer of the deck immediately came to me and told me I would be well treated, but begged me to go down in the wardroom. I told him that it was rather close below, and I wanted to see if they had a big gun. When the officer of the deck failed to get me in below, Semmes came up and asked me if I would oblige him by going back into his cabin. All I saw was four guns on a side, not heavy; but the Sumter will go fast.—Semmes told me he had just got clear of the Iroquois.

☞ The office of the St. Croix Herald, (at St. Stephen, N. B.), which was damaged by blue-nose secessionists on the night of the 19th to the extent of $508, will soon be replenished and the publication resumed. In an extra dated 20th inst., Mr. Hay says that the orderly and well thinking portion of the community denounce he outrage, and sympathize with him in the malignant persecution which he had to suffer. His only offense appears to have been speaking out honestly and boldly against the rebel attempt to break down our Government.—The pretence that he had advertised for recruits in the Provinces, and thereby induced British soldiers to desert, is unjust. His paper circulates very largely on the American side, and for this reason an advertisement was inserted in its columns of a recruiting office at Calais. It is not pretended that any British soldiers have enlisted there.

SINGULAR ENOUGH. The Lewiston Herald states it as a singular fact that not more than one third of the sixteen thousand soldiers enlisted in Maine have had the measles. It makes the statement upon the authority of a medical gentleman who is familiar with the facts in the case. It has been the principal cause of the delay experienced in sending troops from this State to the seat of war.

☞ A Mr. Atkins of Farmingdale, was found dead on Monday morning, near the bank of the river. He left his house with an axe to cut wood on his farm, and it is supposed he was taken in a fit and died almost instantly.

The closing of navigation has already had the effect of filling the Western railroad depots to repletion. Immense quantities of provisions of all kinds are stored up, awaiting transportation, and at Toledo, 73 cars, laden with pork, beef and lard, are waiting on the track, the company being unable to store their contents in their warehouses, where 19,295 barrels of freight have been accumulated within two weeks.

The Washington Star says that a successor to Gen. Phelps, whose injudicious proclamation was published a few days ago, has been appointed, and will be hastened out of the Gulf with as little delay as possible. There is a rumor that Gen. Caleb Cushing will be sent to Ship Island to supercede him, receiving a commission as Brig. General.

GENERAL JAMES H. LANE.—The Washington dispatch, in yesterday's New York Tribune, says of this gentleman's nomination as Brigadier General:

"The nomination was unanimously confirmed by the Senate, but with the distinct understanding that it should not operate until General Lane should signify his acceptance. The Kansas Legislature meets on Monday. It is said that General Lane has an overwhelming majority in both Houses, and that his seat will be kept open for him during the campaign, which he is determined to make, if the administration will cooperate with him."

The Kansas Legislature does not meet until the 14th of January. In other respects, this paragraph corresponds with the information we have.

The Administration will co-operate with Gen. Lane fully and heartily. He will have such an army and such a command as he desires to have. No announcement could be more gratifying to the country. It is the beginning of the end of this war.—*Washington Rep.*

NewspaperARCHIVE.com

TELEGRAPHIC
TO THE
Daily Whig and Courier.

[Dispatches to the Evening Papers.]

Lord Lyons Presents his Official Communication—Rebe trouble about Gen Wise—8000 Runaway Slaves in Alabama.

NEW YORK, 23

The Tribune s Washington despatch says Lord Lyons made his first official communication to Secretary Seward on the Trent affair, Saturday The Secretary is now engaged with his reply

The general impression is that the British Government do not present an ultimatum, but leave room for negotiation

The statement that the Government has determined to yield everything to England, even to the surrendering of Mason and Slidell, is utterly false

POINT OF ROCKS, 22d

Special to N Y Herald. All is right on the Upper Potomac. Jackson retired to Leesburg with his entire force, having failed in everything even to procure his salt The rebel battery opposite Colonel Geary's camp has also retired to Leesburg Impatience and discontent are rampant among the rebels

NEW YORK, 23

The Tribune s Washington despatch says the Richmond correspondent of the Nashville Union and American learns from an authentic source, that President Davis has under consideration a matter which would in all probability result in the resignation of Gen Wise and all the officers on his leg on, in which event O Jenning's Wise, his son, would resume the post of editor of the Enquirer and oppose the administration with all his power This, says the writer, would be a most unfortunate circumstance at this juncture, when a single turn of the wheel may bring endless disaster to the South

SACKETTS HARBOR, 23d

One company of the 7th regiment U S Regulars from New Mexico Lieut Ryan commanding arrived here for Garrison duty at Madison Barracks Saturday.

NEW YORK, 23d

Lewis Warren, a colored man recently arrived from Fort Pickens and formerly employed on the steamship Star of the West, and for some time a prisoner in the interior of Alabama, informs the Herald that there are upwards of 8000 runaway negroes in that State hiding in the woods They have vague ideas of the war

LATER
FROM WASHINGTON

Increase of Duties on Coffee, Sugar and Tea.

Reported Order for the Release of Mason and Slidell.

Gen Halleck Congratulates Gen Pope on his Brilliant Success

Execution of the Murderer Lanahan

LATER FROM EUROPE.

DEATH OF PRINCE ALBERT.

WASHINGTON, 23

The following is the bill passed by both Houses today—

Be it Enacted by the Senate and House of Representatives of the United States, in Congress Assembled—

That from and after the date of the passage of this act, in lieu of the duties heretofore imposed by law on the articles hereinafter mentioned, there shall be levied, collected and paid on the goods wares and merchandise herein enumerated and provided for, imported from foreign countries the following duties and rates of duty—that is to say

1st—On all teas, 20 cents per pound

2d—On coffee of all kinds, 5 cents per lb.

3d—On all brown sugar, commonly called muscovado or brown sugar, and on sugars not advanced above number 12 duty standard, by claying boiling, clarifying or other process, and on syrup of sugar or sugar cane, concentrated molasses or concentrated melado, 2½ cents per pound on sugar after being refined, when tinctured or colored, or in any other way adulterated and on sugar candy 8 cts per pound, on molasses 6 cents per gallon

All syrups of sugar or sugar cane, concentrated molasses or concentrated melado, entered under the name of molasses or any other than their true name shall be forfeited to the United States

NEW YORK, 23d

Five insurance companies have resolved to charge a special rate of three per cent on all coal rock and earth oils

A special despatch from Washington to the Post says that the Cabinet has resolved to release Mason and Slidell, and that an order has gone on ship them to Halifax at once

WASHINGTON, 23d

Official documents show that the coolie trade is continued, in the face of all remonstrance as property, and, among other things stated to the Government, our Consul at Batavia writes that Spanish vessels load at a celebrated pirate haunt and it is more than suspected that they trade with pirates for their victims The British government admits that coolies are kidnapped and are subject to great oppression and misery, but proposes a general scheme of amelioration in order that the African slave trade may be suppressed by the substitution of coolies, arguing that a supply of such would fully meet the demand for laborers in countries where negroes are now profitably employed In this connection it may be stated, that representative Eliot has been the means of eliciting important facts on the subject of the coolie trade, the official documents having been transmitted to the House in compliance with his resolution

The President has approved and signed the bill to further promote the efficiency of the navy

Col Kerrigan was released today on his parole till next Monday, for the purpose of proceeding to New York to visit his family and attend the funeral of his brother

The delegations of Philadelphia Clothiers visited Gen Meigs today to inquire as to the prospect of receiving pay for the clothing furnished the army They were informed that one million dollars was sent thither today and another would be transmitted in the course of the week

Capt Morris has officially reported that the steamer Pensacola is ready for service. Her steam steering apparatus is successful.

OTTERVILLE, Mo., 23d

The expedition under Gen Pope went about just five days In this time they marched about two days in a direct line from this place, and scoured the country through which they passed for a distance of 40 or 50 miles on the east side of the route, taking almost 1500 prisoners, 1,000 horses and mules, 1000 stand of arms, 100 wagons, and a quantity of stores, supplies and clothing

Gen Pope has received the following dispatch from Gen Halleck

Headquarters Department of the Missouri, Dec 20, 1861

To General John Pope—I congratulate your command on the brilliant success of your expedition I hope it will be the forerunner of still greater successes

(Signed) H W HALLECK,
Major Gen Commanding

ST LOUIS 23d

Gen Halleck has issued an order, saying, if any one is caught burning bridges, destroying railroads or telegraphs, will be immediately shot Criminals will be examined by Military Commissioners, and if found guilty will suffer death Slaves of secessionists in the vicinity will be pressed into service of repairing all bridges, railroads and telegraphs, and, if necessary, the secessionists themselves Any pretended Union man having information of an attempt to destroy such roads and lines, or of the guilty parties who does not communicate such intention and aid in arresting such, shall be deemed participants in the crime, and shall be tried accordingly Hereafter towns and counties in which such destruction of public property takes place, will be made to pay the expenses of all repairs, unless it be shown that the people of such towns or counties could not have prevented it, on account of superior force of the enemy

NEW YORK, 23d

Special dispatches from Washington state that Minister Adams reports to the State Department that he had an interview with Earl Russell after the discussion of the Trent affair in the British Cabinet, but no definite conclusion was arrived at

It is said that Ireland is ripe for a revolution in case of war between England and the United States There is not however, much faith to be placed in this

The Evening Post says that private letters from well advised sources in Washington represent that certain interviews were held between Lord Lyons and Mr Seward, immediately after the Trent affair, and their respective letters to London at that time were based on the disavowal of the knowledge by our Government that such capture was to take place, and of all purpose to insult the British flag This has delayed the presentation of the peremptory demand of the British Government which came out in the Europa Further advices from London will probably be awaited

General Burnside's expedition will not go away from Annapolis until after Christmas, but is sure to sail before New Year

The 6th N Y volunteer cavalry left today for Washington

Steamship North Star, from Aspinwall 14th has arrived She brings $822 000 in treasure The French transport ship Resource, bound to Callao, was wrecked 40 miles south of Valparaiso She had over 600 souls on board, only 5 or 6 of whom were saved

Gen Van Roman is elected President of Peru He was at Arequipa and had been joined by 3000 additional troops

The coffee crop of Costa Rica is short

The blockade of Bueno Venture terminated by the loss of one vessel and the surrender of the other to Mosquera's force

NEW YORK, 23d

The Philadelphia Bulletin s Washington special despatch says Lord Lyons will not present his despatch of the Trent affair until Adm ral Milne acts upon his instructions to proceed to Boston harbor

FREDERICK, Md, 23

The finding of a Court Martial in the case of Lanahan for shooting Maj Lewis of the 46th Pennsylvania Regiment, has been approved by Gen McClellan He will be executed today

The weather is calm and cheerful All quiet above today

FREDERICK, Md, 23d

Lanahan was hung at 2 o'clock this afternoon He died without a struggle The body was taken possession of by his friends Many citizens were present as spectators Weather snowy

ST JOHN, N F, 2

It was the steamship Edinburg, not the Saxonia, that was intercepted off Cape Race on Saturday night Owing to an interruption of the telegraph, the following news was delayed in transmission

The French Journals advise the French Government to observe a strict neutrality in the case of a war between England and America

The Paris Temps approves the proposal of the London Daily News to appeal to the mediation of friendly powers, in accordance with the agreement made at the Paris Conference in 1856, and says no other power but France can be the mediator

The Paris Presse advocates the energetic intervention of France between England and America

The Opinione Nationale, the organ of the French Liberal party, say that France should not follow the example of England, should the latter recognize the Southern Confederacy

The Momento of Turin warns England against bringing on a war with America, as France would take advantage of interfere in the East

Austrian papers state that fears are entertained at Vienna that war between England and the United States of America would remove the only obstacle in Europe against French ambition and that France would begin war against Germany

The Paris Constitutionnel publishes an article stating the strong necessity there is for an Anglo French alliance, which, it says, could not be endangered by war between England and America.

ST JOHNS, N F, 23d

The Persia from Liverpool 15th passed Cape Race at 5 o clock Monday night

Prince Albert expired Sunday noon of gastric fever

The Persia has 1100 troops on board, bound to river DuLoup or Bic

The Liverpool Mercury of the 14th says that a report prevailed in London that Earl Derby had been consulted by Government in regard to an approved policy in reference to American difficulties

It was suggested to ship owners to instruct captains of outward bound ships to signalize any English vessels, and as war with America is probable this suggestion is strongly approved of by underwriters

The Australasian sailed from Liverpool on the 13th with troops for Canada

Prince Albert s illness was not considered dangerous till Friday

WASHINGTON, 23

SENATE.

Mr Grimes gave notice of a bill to have one hospital in Washington placed under the care of a homoeopathic physician.

Mr Lane of Indiana, presented the credentials of Garrett Davis, Senator elect from Kentucky, in place of Breckinridge expelled.

Mr Davis appeared and took the oath

Mr, Sumner presented a memorial of the citizens of Boston, stating that the freedom of the press had been abridged, and asking relief

A bill making an appropriation of one million five hundred thousand dollars for the gunboats on Western rivers, was passed

Mr King offered a resolution requesting the President to institute legal proceedings against persons arrested by the Executive authority, and who are now remaining in custody, that judicial examination may be had in such cases Laid over

Mr Simmons offered a resolution that a select committee of three be appointed to consider the expediency of connecting some military and naval stations on the coast by a submarine telegraph Adopted

A communication was received from Quartermaster General Ripley, in reply to a resolution as to what articles should be sold by Sutlers — Referred to Committee on Military Affairs.

Mr Wilson introduced a bill to the effect that any military or naval officer who shall cause the seizure and delivery up of a slave, shall be deemed guilty of a misdemeanor, and shall be dishonorably discharged and forever ineligible to any appointment in the military or naval service of the United States.

Mr Harris introduced a bill to provide for the appointment of an additional judge in the Southern district of New York, also a bill to regulate and change the Circuit Court in the the Northern district

The bill from the House to increase the duties on tea, coffee and sugar was passed

On the question of concurring in the House resolution as to adjournment, no quorum voted

Adjourned

HOUSE.

Mr Perry introduced a bill providing for a better organization of the military establishment. Referred

Mr Vallandigham introduced a bill to enforce a writ of habeas corpus and secure the liberty of the citizens Referred to the Judiciary Committee and ordered to be printed

Mr Noel introduced a joint resolution to suspend the collection of the National direct tax in Missouri Referred

Mr Wilson s resolution, requesting the Military Committee to report a bill for the enactment of an additional article of war, prohibiting officers in the military service of the United States using forces under their command for the return of fugitive slaves was considered and passed—ayes 67, nays not counted

The punishment for violation is dismissal from service

On motion of Mr Vandeever the Committee on Territories were directed to inquire into the expediency of establishing Territorial governments within the limits of dislayal States or Districts and report by bill or otherwise

On motion of Mr Sheffield the Committee on Military affairs were instructed to inquire into the necessity of the east and west entrances of Narragansett Bay and report by bill or otherwise

Mr Morrill of Vermont from the Committee on Ways and Means, asked leave to report a bill to increase the duties on tea coffee and sugar It proposes on tea of all kinds 20 cts per pound, coffee 5 cts, sugar 2½, 3, 5 and 8 cts according to quality, and molasses 6 cts per gallon

Mr Vallandigham objected to the introduction of the bill, but on motion of Mr Morrill the rules were suspended for that purpose

Mr Morrill said the bill was simply in accordance with the recommendation of the Secretary of the Treasury After some debate Mr Morrill demanded the previous question A quorum not voting, a call of the House was resorted to for the purpose of securing the attendance of absentees The bill subsequently passed 77 against 29

Mr Washburne of Illinois, offered a resolution calling on the Secretary of the Navy for copies of the correspondence with certain parties relative to battering rams and steam vessels for coast harbor defence Referred to the Naval Committee

Mr Moreland of Pennsylvania, offered a resolution which was adopted, instructing the Committee on the Judiciary to report a bill providing that any person engaged in the present rebellion shall be forever incapable of holding any office of trust under the Constitution and Laws of the United States

Numerous resolutions of inquiry were adopted and among them one calling on the Secretary of War for information concerning the quantity of arms purchased since the 12th of April last and the prices paid, and also for the correspondence between the Secretary of War and the Chief of the ordnance bureau relative to the arms purchased by Gen Fremont

Mr Benton of New York, introduced a bill granting lands for railroads from the Missouri river to San Francisco Referred to a special committee

On motion of Mr Blake of Ohio the committee on the Post Office was instructed to report a system by which money can be safely transmitted through the mails

On motion of Mr Maynard of Tennessee, the Committee on Commerce were instructed to inquire as to an extension of marathine facilities in order to facilitate emigration by those who wish to leave Ireland by reason of the apprehended famine

Mr Cox of Ohio, asked leave to offer a resolution direct ng the Secretary of the Treasury to communicate to the House what changes are to be made in the present tariff with a view solely to increase the revenue, &c The resolution was objected to by Mr Stevens of Pennsylvania and not recorded

Mr Bingham of New York, from the Judiciary Committee, reported a bill amendatory of the act to establish a judicial system It provides for two circuits instead of one in the north western States, and consolidates the 5th and 9th circuits consisting of Alabama Louisiana, Mississippi Arkansas and Texas, into one It does not change the number of Judges, but leaves the Supreme Court as it is now The bill was postponed until the 3d Monday in January

The House agreed to adjourn, the Senate concurring, from Thursday next until the following Monday and then until the 2d of January and adjourned until Thursday

The New York Weekly Caucasian, the successor of the traitorous Day Book, has been excluded from the mails

The St John Colonial Empire says a report has reached that city to the effect that Captain Coxetter, of the Jeff Davis privateer, a native of St John, was on board the Trent at the time Mason and Slidell were taken off, locked up in the bread room, and that he had on his person $85,000 in exchange and letters of credit, wherewith to purchase a steamer in England, to cruise under the flag of the Confederacy

A SHARP CONTRACTOR The investigating Committee have recently had their attention called to the case of a Pennsylvanian, who contracted to furnish the trans Potomac camps with firewood at $4 a cord. It is said he procures the whole supply from trees already felled by Government, which he pays fifty cents a cord for cutting. It is then transported in camp in Government wagons.

The Washington Post Office is getting to be an immense Government machine. There are frequently 70,000 letters received here daily, and as many dispatched. The revenues have risen from $2000 a quarter beyond expenses, to $60,000 which will give some idea of the work.

FIRST DISTRIBUTION TO THE CHARLESTON REBELS. In enumerating the buildings burned in the Charleston conflagration, the New York Herald says

It is worthy of remark that Institute Hall, where the Democratic Convention was held which split the party and split the nation, the theatre, to which the secessionists retired to hold a separate convention, St Andrew's Hall, where the Mozart faction figured, the Charleston Hotel and the Mills House, where the warring factions respectively held their headquarters, Hibernian Hall, where the secession ordinance was passed, the cannon and ammunition foundries the treason shops of the Mercury and Courier, and the head quarters of Governor Pickens, have been all laid in ashes. Does it not look like a retribution of Providence and an omen and a type of the future destruction of the rebellion?

Among the buildings included in the burnt district are two iron foundries—one of them lately employed in the manufacture of cannon, and the other in making cannon balls and shells. Several churches, and nearly all the public buildings, banks, and insurance offices, became a prey to the flames

A strictly orthodox gentleman in Massachusetts returned one afternoon from church, and began to extol to a friend the merits of the sermon

'I have heard, Frank,' said he, 'one of the most delightful sermons ever delivered before a christian society It carried me to the gates of heaven'

'Well, I think, said Frank, 'you had better dodged in, for you'll never get such another chance'

ALL PHYSICIANS AGREE

That large and frequent doses of nauseous alcoholic compounds taken into the stomach from time to time must have a tendency to destroy the delicate tone of that vital organ of the human system and it is well known to all the medical profession that the active principle of a gallon of liquid medicine can be placed in a table spoon Why then the use of giving large and nauseous draughts? The erroneous idea, that the more nauseous the medicine the more potent its effects, is now discarded by all candid reasoners and it is indisputably proved beyond doubt that BRYANT'S POWDER WORKS—a medicine of the most agreeable and palatable nature—are the most effectual remedy for Coughs, Colds, and their consequences They invariably give relief in ten minutes, and are so pleasant to the taste that any child will take them

CLOTHING.

GENTLEMEN

Having retired from years the fortunes of Tailoring credit business, and having myself proved that system to be utterly wrong for the Retail Tailoring business, feel compelled to adopt the CASH SYSTEM It is better for the customer who expects to pay for the garments as the amount lost by bad debts, under the credit system, is divided between the patrons and the patronized, as the former receive it by paying as much as 20 per cent. less for their garments and the latter is saved from bankruptcy Consequently I would invite all Cash paying customers to examine the Stock of Goods now on hand and see if the prices are not 20 per cent less than at any other Clothing House in the city The Cutting Department is under the charge of

Mr J H LARKIN,

favorably known in New York and Boston as one of the Best Artists in the Art of Cutting.

ALL

Garments made at my establishment warranted to give entire satisfaction, and in any style to suit customers.

TO HORSE OWNERS.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES, is unrivalled by any, and in all cases of lameness arising from Spreins, Bruises or Wrenching, its effect is magical and Certain Harness or Saddle Galls, Scratches, Mange, &c., it will also cure specdily Spavin and Ringbone may be prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a *radical cure* No case of the kind, however, is so desperate or hopeless but it may be alleviated by this Liniment, and its faithful application will always remove the lameness, and enable the horse to travel with comparative ease. Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases pertaining to which the horse is liable, and which render so many horses worthless, which literally worthless.

Dr. LIGHTHILL
Will Return to the
Bangor House,
BANGOR,
JANUARY 7th,
To remain for a short time, treating
DEAFNESS, CATARRH
—AND—
Diseases of the Eye.

DR. LIGHTHILL.

CURES OF DEAFNESS OF LONG STANDING—The following case of Joseph Darling a well known citizen of Hudson is another testimony to the skill of Dr Lighthill

Mr Editor—Dear Sir A feeling of gratitude for a great Benefactor and a desire to benefit the similarly afflicted impels me to state the following For 34 years I was very deaf could hear but voices of my wife and family nor could I hear preaching or public speaking even when close to the speaker I had a constant beating in my ear At times it would sound in my head as though a steam engine was puffing near me In that condition I placed myself under Dr Lighthill's care which *entirely restored my hearing and cured me of the noises* I am 61 years of age and reside in the town of Hudson in this county Respectfully yours

JOSEPH DARLING

Bangor, Dec 10 1861

This forenoon Mr Jacob Curtis, of Hampden was successfully operated upon for Sleep Lachrymalis or ulceration of the tear duct. The disease was of 40 years standing A silver tube was inserted in the corner of the eye.—(Bangor Times, Dec 11 1861

CURE OF 40 YEARS DEAFNESS The following remarkable cure by Dr Lighthill is thus fully attested This is to certify that I was very deaf for 40 years, and that Dr Lighthill has so *perfectly restored my hearing*, for which I am very thankful Before I came to Dr Lighthill I could only hear when persons addressing me would speak quite loud and close into my ears Now I can hear as well as I did before I ever was afflicted The beating and buzzing in my head and ears which attended my deafness has now entirely subsided I am 31 years of age and reside in Bangor on the Carmel road

PELEG GULLIFER.

BOOTS AND SHOES

MADE ON

PLUMER'S PATENT ANATOMICAL LASTS!

(From J V C Smith, M D., formerly Mayor of Boston)

PLUMER'S PATENT BOOTS.

The Undersigned has worn a pair of these Improved Boots, and feels grateful to the Inventor for the comfort derived from them. The close adjustment of the sole to every part of the under surface of the foot, is an important circumstance which seems to have been entirely overlooked till Dr Plumer applied his Last and Boot upon truly scientific principles.

Those who have once had an opportunity to test the real advantages of these Philosophically made Boots, will hardly be reconciled to wear any other

J V C SMITH

BOSTON July 26 1861

J C FLETCHER, M D

Dear Sir I am greatly delighted with your newly invented boots which I have worn during the past winter and only wonder that the world should have been so stupid as not to have made the discovery half a century ago. Any one with a grain of common sense and a moments reflection cannot fail to see that your PATENT BOOTS AND SHOES are perfectly adapted to the foot (that wonderful piece of Nature's Mechanism) giving to every portion of it a full and equal support and I am sure that those who once make trial of your new invention will never go back to the old fashioned boots or shoes which are so prolific of Corns, Bunions, and a thousand other troubles. Your Patent Boots seems to be part and parcel of our Physical structure supporting the foot firmly giving steadiness to the gait and preventing human comfort to an eminent degree especially in walking over rough surfaces.

I wish I knew of some means by which I could make known to every man, woman and child in Christendom, the natural and important advantages of your invention.

Very truly yours

MORRIS HATTSON M D

66 Summer Street

PORTLAND July 12, 1861

DR FLUMER—

Dear Sir Having learned the principle upon which your Anatomical Last is made, I was favorably impressed as to its efficiency in relieving a difficulty which all have experienced who have to walk much or considerably, viz severe pain in the feet after much walking. After having worn the boots made upon the Anatomical Last, I found my anticipations more than realized. I can walk nearly all day without experiencing the above named difficulty in the least degree. I have escaped the torture in my corns, bunions, in my boots, for they were as easy at first as after they had been worn

Truly Yours C H HURBANK M D

Corner of Congress and Temple Streets

I have been engaged for over six months in the manufacture of BOOTS and SHOES on the

"Plumer" Patent Last

with decided success. Experienced workmen are employed, the BEST stock used and a perfect fit guaranteed
